

Haley Shah

800 Energy Center Blvd Apt 206, Tuscaloosa, AL 35473 | (256)-343-3749 | shahhetvi990@gmail.com | github.com/hashah88

Education

Bachelor of Science in Computer Science

The University of Alabama – Honors College

GPA: 3.8/4.0

May 2020

Technical Skills

C/C++, HTML, CSS, JavaScript, Angular, Express, Node.js, Swift

Tools

Xcode, Git

Projects

Tweety Wallet (Crimson Hacks 2018) <https://devpost.com/software/tweety-wallet>

- Worked with a team to design an application that helps user decide what to do with their cryptocurrency using facial recognition.
- Designed a simple user interface to display multiple graphs of cryptocurrency Twitter data.
- Awarded First prize for best use of Amazon Web services.

Food Pro - <https://github.com/hashah88/foodPro>

- An iOS app that familiarizes people with common names of Indian food.
- Implemented User Defaults to keep track of the user's score for each category.
- Designed a user interface (UI) using Material Components as well as presented Popup view via animation.

Pizza Hunter - <https://github.com/hashah88/PizzaHunter-APP>

- An iOS RESTful app that allows users to search for Pizza restaurants around them and also shows the Restaurant details.
- Utilized Yelp API to collect the data and used a Siesta framework to smooth the networking process.

Relevant Experience

DEVELOPER INTERN / INSURESOFTECH / MAY 2018 – AUGUST 2018

- Wrote front-end code for Diamond REST API Documentation that helps Insuresoft's customers easily integrate with Insuresoft services.
- Implemented server-side code that loads data for different versions using Express.js.
- Developed additional features to improve the functionality of the Documentation.

Additional Experience

FRONT DESK CLERK / AMERICA'S BEST VALUE INN / AUGUST 2017 – JANUARY 2018

- Oversaw online reservations and update the changes in the prices on the hotel's website.
- Strategized schedule and supervise the work of front desk employees.

TECH SALES ASSISTANT / WIRELESS WORLD / AUGUST 2016 – MARCH 2017

- Troubleshoot customer's technical problems using prior technical knowledge.
- Informed customers about issue resolution process with strong verbal and negotiation skills.

Honors/Extracurricular Activities

- National Science Foundation Learning in Advance scholarship recipient
- Association of Computing Machinery (2017-Present)
- Emerging Scholars Program (2017 – Present)
- Achieved silver medal in the Tech Fair for computer programming (2015)
